Hello! You're Welcome -

Professional Full-Stack Web Developer & WordPress Specialist.

I'm Md Riyad Passionate at web development. I'm working minimum of 13-14 hours every day, I love to do this it's my life-everything. My goal is to satisfy clients, try to understand what they want for their website, help them from beginning to end the project and give support for every problem. If need I communicate by video or audio conversations to understand the problems and project requirements. After completing website and projects I give instructions, How they can manage, edit, update, add page and post on the website by themselves. if needed I send video tutorials.

Working on:

01.

Quality

Design Quality is very important for every website, I make sure 100% quality & satisfaction before delivering the project

02.

Fixing problems

Website problem & bugs it's a common problem for every website. Don't worry about bugs and problem can fix any type of problems & bugs for any website

PROCESS

How do i work?

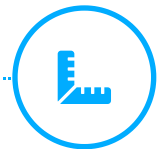

1. Discussion

To understand the project needs & requirements it's very important for me, for that I discuss with every details to related projects if needed I communicate by video or audio conversations.

2. Planning

Then I can create a plan for the interior projects. Planning gives high potential to every projects. Every single detail listed in the plan, when I deliver, when I need website data form you.

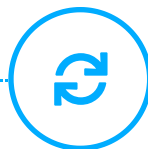

3. Design

I give highly concentration to website des every time I try to give my best to do clean services related awesome design for th website. A nice design can improve you business quality.

4. Coding

The website is built by web language that's why we need to code for every website. it's very important to have hand coding, clean and developer friendly coding. I give 100% guarantee in all of them.

5. Submit for Review

After design and coding, I send for review to client. After client's checking, If have to change or revision, I say client to send all of them in a list and I am happy to do all changes every time.

6. Website Is Ready!

After reviewing everything, we are going to final step, if everything has done, then I c publish it for everyone. In every project, i r sure to give full support to the clients.
